# Our Lady's Little Learners Preschool

## Program Philosophy...

The purpose of the Our Lady's Little Learners Preschool Program is to provide an environment that will nurture and stimulate the development of young children and surround them with an atmosphere of God's love.

In our program your child will experience a wide array of activities that center around a weekly or bi-weekly theme and incorporate many skills and interests. We provide many hands-on

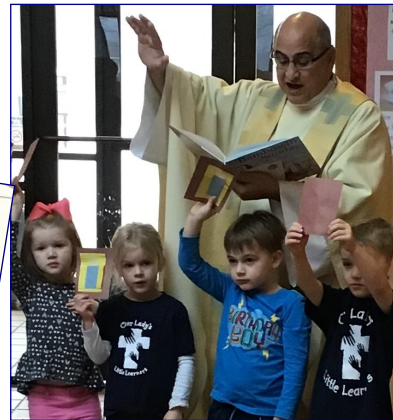

learning opportunities, including opportunities to work cooperatively and independently, plus free choice activities.

Students in the Our Lady's Little Learners Preschool Program are exposed to a curriculum that promotes emotional, spiritual, social, cognitive, and motor development. The curriculum includes a variety of activities and materials that are

meaningful and challenging, tailored to meet individual needs, interests, and abilities. Further, it stimulates critical thinking skills, increases language development, and establishes basic concepts as a foundation for learning throughout life.
